Objective

Aspiring Data Scientist with a strong foundation in data analysis and machine learning. Seeking to apply analytical and problem-solving skills to real-world data-driven challenges.

Education

MSc Data Science (2024–2026)

Maharani Lakshmi Ammanni College for Women, Bengaluru

BSc Mathematics & Computer Science (2021–2024)

Nrupathunga University, Bengaluru — **CGPA: 8.7**

Technical Skills

- Programming: Python
 - Python Libraries: Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn, NLTK
 - Machine Learning: Regression, Classification, Model Evaluation
 - Data Science: EDA, Data Preprocessing, Feature Engineering, Statistical Analysis
 - NLP: Text Preprocessing, TF-IDF
 - Databases: SQL, NoSQL
 - Data Visualization Tools: Power BI (Interactive Dashboards)
 - Web Scraping: Data Extraction & Structuring
-

Internship Experience

1. AI-ML Intern | InternPe (Sep 2025 to Oct 2025)

Applied ML techniques using Python on real-world datasets, including EDA, preprocessing, model training, and optimization to deliver end-to-end predictive solutions.

Breast Cancer Prediction using Machine Learning

- Performed EDA, feature scaling, and preprocessing on healthcare dataset.
 - Built and compared Logistic Regression and SVM models.
 - Evaluated models using F1-score, Recall, Confusion Matrix, and ROC Curve.
 - Deployed using Gradio on Hugging Face Spaces for real-time prediction.

-

2. AI – Machine Learning Engineer Intern | IIT MANDI (Mar 2024 to Jun 2024)

- Worked on machine learning projects involving classification and data analysis.
- Performed preprocessing, feature engineering, and model evaluation.
- Extracted and structured real-world data using web scraping.

Projects:

i . Pulsar Star Classification using Machine Learning

- Built classification models including Random Forest, SVM, and XGBoost.
- Evaluated performance using F1-score, Recall, Confusion Matrix, and ROC Curve.
- Identified optimal model through comparative analysis.

ii. Real Estate Price Prediction using ML & Web Scraping

- Scraped 600+ property listings from MagicBricks using BeautifulSoup.
- Performed data cleaning, feature engineering (Location, BHK), and EDA.
- Built regression models (Linear Regression, Random Forest, XGBoost) for price prediction.
- Improved model performance through feature optimization and evaluation.

iii. IMDb Movie Review Sentiment Analysis (NLP)

- Scraped movie reviews from IMDb and structured text data.
- Utilized large-scale dataset and performed text preprocessing including cleaning, stopword removal, and normalization.
- Applied TF-IDF vectorization and built classification models for sentiment analysis.
- Deployed using Gradio on Hugging Face Spaces for real-time prediction to classify reviews as positive or negative.

3. HR Recruiter | Inspire Consultancy Services (Jan 2023 – Mar 2024)

- Managed full-cycle recruitment including sourcing, screening, and coordination
- Handled hiring for both IT and non-IT roles.
- Coordinated with clients and handled hiring requirements across roles.

Certifications

- NCVET-certified AI-Machine Learning Engineer - IIT MANDI
- AI-ML Internship Certification - InternPe
- Digital 101 Journey Certification
- Data for Public Good Symposium - IISc Bengaluru
- Workshop on Computer Networks

Soft Skills

- Problem Solving
- Analytical Thinking
- Effective Communication & Client Coordination
- Adaptability
