Objective

Analytical and detail-oriented postgraduate with a strong foundation in data analysis, machine learning, deep learning, and data-driven problem solving. Seeking opportunities to apply technical, analytical, and problem-solving skills to contribute to organizational growth.

Education

MSc Data Science (2024–2026)

Maharani Lakshmi Ammanni College for Women, Bengaluru

BSc Mathematics & Computer Science (2021–2024)

Nrupathunga University, Bengaluru — CGPA: 8.7

Technical Skills

- **Programming:** Python
- **Python Libraries:** Pandas, NumPy, Scikit-learn, PyTorch, TorchVision, OpenCV, Matplotlib, Seaborn, NLTK
- **Machine Learning:** Regression, Classification, Model Evaluation, Feature Engineering
- **Deep Learning:** CNN, ViT, DINO, Vision-Language Models, Feature Extraction
- **Computer Vision:** Zero-Shot Anomaly Detection, XAI, PCA, Image Processing
- **NLP:** Text Preprocessing, TF-IDF
- **Databases:** SQL, NoSQL
- **Data Visualization:** Power BI
- **Web Scraping:** BeautifulSoup, Data Extraction & Structuring

Internship Experience

1. AI-ML Intern | InternPe (Sep 2025 – Oct 2025)

- Applied ML techniques for predictive analytics using Python.
- Performed EDA, preprocessing, model development, evaluation and deployment.

2. AI-Machine Learning Engineer | IIT Mandi (Mar 2024 – Jun 2024)

- Developed ML and NLP solutions using real-world datasets.
- Worked on preprocessing, feature engineering, model evaluation and web scraping.

3. HR Recruiter | Inspire Consultancy Services (Jan 2023 – Mar 2024)

- Managed end-to-end recruitment for IT and Non-IT roles.
- Coordinated sourcing, screening, interviews and client requirements.

Projects

1. Explainable Vision-Language Industrial Intelligence for Zero-Shot Surface Anomaly Reasoning (Academic Major Project)

- Developed an unsupervised zero-shot anomaly detection framework using ViT, DINO, Vision-Language Models, Feature extraction, PCA, Mahalanobis distance, Patch memory bank, XAI heatmaps and Gradio.
 - Built with PyTorch, TorchVision, OpenCV, Scikit-learn and deployed on Hugging Face Spaces.
- Technologies:** Python, PyTorch, ViT, DINO, Vision-Language Models, PCA, XAI, OpenCV, Gradio, Hugging Face

2. AI-Driven Energy Consumption Prediction for Sustainable Computing (Academic Project)

- Developed ML models using preprocessing, feature engineering and regression analysis.
- Compared Linear Regression, Random Forest and Gradient Boosting using MAE, RMSE and R².

Technologies: Python, Scikit-learn, Linear Regression, Random Forest, Gradient Boosting

3. Breast Cancer Prediction using Machine Learning (InternPe Internship)

- Built Logistic Regression and SVM models and deployed on Hugging Face Spaces.

Technologies: Python, Logistic Regression, SVM, Gradio, Hugging Face

4. Pulsar Star Classification using Machine Learning (IIT Mandi Internship)

- Built Random Forest, SVM and XGBoost models.

Technologies: Python, Random Forest, SVM, XGBoost

5. Real Estate Price Prediction using ML & Web Scraping (IIT Mandi Internship)

- Scraped 600+ listings using BeautifulSoup and built regression models.

Technologies: Python, BeautifulSoup, Linear Regression, Random Forest, XGBoost

6. IMDb Movie Review Sentiment Analysis (IIT Mandi Internship)

- Performed TF-IDF based sentiment analysis and deployed on Hugging Face Spaces.

Technologies: Python, NLP, TF-IDF, Gradio, Hugging Face

Certifications

- NCVET Certified AI–Machine Learning Engineer – IIT Mandi
 - AI–ML Internship Certification – InternPe
 - Digital 101 Journey Certification
 - Data for Public Good Symposium – IISc Bengaluru
 - Workshop on Computer Networks
-

Soft Skills

- Problem Solving
- Analytical Thinking
- Effective Communication
- Client Coordination
- Adaptability
